SUPPLY CHAIN FINANCING PROGRAM OVERVIEW FOR SUPPLIERS

Today both Buyers and Suppliers are looking for ways to reduce financing costs, improve working capital, and free up liquidity in their cash conversion cycle.

Now, with this program offered exclusively by MUFG to Suppliers, you can improve your Cash Conversion Cycle by reducing your Days Sales Outstanding and get faster access to your own funds at a rate that is beneficial to you.

What are the benefits to you?
• Reduce your Accounts Receivables and associated carrying costs
• Get paid at an attractive rate
• Receive notification of payment via our supplier portal
• Payment certainty to relieve the need for short term borrowing and reduce credit risk

How does the program work?
The MUFG Supply Chain Finance program offers you the ability to get paid earlier:

1. You send your goods/services to your Buyer and submit invoices as in previous manner
2. Your Buyer sends approved invoices as in previous manner
3. MUFG discounts the approved invoice and pays the Supplier net proceeds (gross amount less discount)
4. At maturity, your Buyer pays the approved amount to MUFG
5. MUFG sends approved invoices as in previous manner

How to calculate your cost savings?
Your fee is based on the value of your receivable, the period the receivable will be outstanding plus any payment cycle terms, and the MUFG price, which is comprised of a base rate such as LIBOR plus a credit spread.
Sample Cost Savings Calculation
For illustrative purposes only: let’s say that your current terms with your buyer are 2.5%/15 Net 150, an equivalent interest rate of 6.67%. With the MUFG SCF Program, your interest rate would be LIBOR + 115 bp

= 2.61%** + 1.15%

Key Take Away:
The MUFG Price will likely be significantly lower than your current invoice discount amount

Let’s Figure Out How Much You Can Save?
